Cold War Comes Home Guided

The Cold War was a period of geopolitical tension between the United States and the Soviet Union and their respective allies, the Western Bloc and the Eastern Bloc, which began following World War II. Historians do not fully agree on its starting and ending points, but the period is generally considered to span the 1947 Truman Doctrine (12 March 1947) to the 1991 Dissolution of the Soviet Union ...

A New Cold War on a Melting Planet? Let's start with this: the old pattern of rising and falling empires should be seen as a thing of the past. It's true that, in a traditional sense, China is now rising and the U.S. seemingly falling, at least economically speaking. But something else is rising and something else is falling, too.

Cold Mountain is quite possibly the most beautiful book that I've ever read. It's not for the faint of heart, however, as it's time consuming and requires a great deal of patience as Frazier takes his time with his descriptions of the landscape and the people as Inman, a soldier broken in spirit by the futility and waste of the Civil War, decides to walk home to Ada and his beloved Cold Mountain.
