Definition and brief explanation. Market segmentation is the process of dividing up mass markets into groups with similar needs and wants. The rationale for market segmentation is that in order to achieve competitive advantage and superior performance, firms should: "(1) identify segments of industry demand, (2) target specific segments of demand, and (3) develop specific 'marketing mixes' for ...

Market segmentation - Wikipedia
Management (or managing) is the administration of an organization, whether it is a business, a non-profit organization, or a government body. It is the art and science of managing resources. Management includes the activities of setting the strategy of an organization and coordinating the efforts of its employees (or of volunteers) to accomplish its objectives through the application of ...
