large paper bag; the children's book Great Estimations by Bruce Goldstone (Square Fish, 2010) collections of grid paper (different-sized grids such as inch, half-inch, centimeter), measuring cups (various sizes), unifix cubes, and balance scales and masses . Lesson Outline Focus or Warm-Up. Place the large paper bag on a table.

Classroom Lessons | Math Solutions

For instance, the schools recognised the common obstacle in vertical addition and subtraction of 'exchange', for example $45 + 27$ or $45 - 27$, and used resources like place-value cards and base 10 equipment (such as Cuisenaire rods and Dienes blocks) to support pupils' understanding.

Ofsted publication - GOV.UK

Abstract concepts, ah yes. Do you remember when teaching mathematics would be revolutionised with the introduction of the "cuisenaire" system of coloured rods. When kids had been taught with this system they had no idea of what "concept" meant. When they were asked what 2 plus 2 equalled the answer was invariably what coloured rods.
