Concept and uses. The Servi-Car was designed during the Great Depression when Harley-Davidson was desperate to expand its product base to increase sales. Targeted at the automotive service industry, the vehicle was designed to be towed behind a car to be delivered to a customer; when the car was delivered at its destination, the driver would unhitch the Servi-Car and ride back to the garage.

Harley-Davidson Servi-Car - Wikipedia

Overview [edit | edit source]. The bike was designed to be a bullet proofed "sports tourer" - in the thinking of the last 1970s - and Suzuki pooled the best of all the features, taking the engine from the Suzuki GS750, boring it to 850 providing more torque, the shaft drive from the 1100 and various other workings.The result was a solid, smooth and effortless tourer.

Engine - The engine is brand new supplied by Ivor Searle. I have just had it set up on the Dyno at 3500RPM with s smooth increase line. A new electronic ignition and HT leads have been added. Finished off with a full service. Starts on the button and the drive is epic. Will want setting up again on the rolling road once 500 miles has been run in.
