The "standard" BibTeX styles mentioned in LaTeX: A document preparation system (p. 74) make citations of the form "see [2]" or "see [AH75]" and number the references in the bibliography. If that's what you want, and you are satisfied with the format of the bibliography that those styles produce, you're done.

Using BibTeX: a short guide

LaTeX: A Document Preparation System Addison-Wesley, Reading, Mass. (1986). No electronic version available. In the early 80s, I was planning to write the Great American Concurrency Book. I was a TeX user, so I would need a set of macros. I thought that, with a little extra effort, I could make my macros usable by others.

The Writings of Leslie Lamport

Typesetting is the composition of text by means of arranging physical type or its digital equivalents. Stored letters and other symbols (called sorts in mechanical systems and glyphs in digital systems) are retrieved and ordered according to a language's orthography for visual display. Typesetting requires one or more fonts (which are widely but erroneously confused with and substituted for ...

Typesetting - Wikipedia

LATEX [1] is a typesetting system that is very suitable for producing scien-tific and mathematical documents of high typographical quality. It is also suitable for producing all sorts of other documents, from simple letters to completebooks. LATEXusesTEX[2]asitsformattingengine. This short introduction describes LATEX2"and should be sufficient for

TheNotSoShort IntroductiontoLATEX2 - OETIKER

@Praxeolitic You would ask me that after I moved away from the office that kept copies of both the TeXbook and Lamport's LaTeX: A Document Preparation System lying around. I think it is in Lamport, but I can't swear to it. – dmckee --- ex-moderator kitten. Jun 7 '14 at 14:57 "Most". The default font is too hard to read, I prefer something ...
