We've had a rather breathless 12 months of space travel, taking us from the moon to Pluto and beyond. Here we look at the 10 greatest developments of recent times.

The 10 biggest developments in space exploration in the ...

Everyday space travel: Dream or Reality? The first manned space flight in 1961 captured the imagination of the world, and for many, space travel became a lifelong dream. Throughout the sixties, Man's successes in space left many believing space tourism was on the doorstep. Pan American Airlines were the first to capture this interest ...

Everyday space travel: Dream or Reality? - Chapman Freeborn

Can humans travel at the speed of light? - relativistic space travel. In the previous example, where we traveled to Andromeda Galaxy, the maximum velocity was almost 3000 times greater than the speed of light $c = 299,792,458$ m/s, or about $c = 3 * 10^8$ m/s using scientific notation. You can always use our speed converter to find its value in any other speed units.
