Thoughts are mental cognitions—our  
ideas, opinions, and beliefs about  
ourselves and the world around us. They  
include the perspectives we bring to any  
situation or experience, which color our  
point of view (for better, worse, or  
neutral). An example of a long-lived  
thought is an attitude, which develops  
as thoughts are repeated over and over  
and reinforced. .
